

Vinyl Siding & Accessories

Picking the right siding color, style and design is about to get easier.

Relax, you've got all you need right now!

This brochure will be the start of your exciting remodeling journey. As you page through all the options you have in the ABTCO line, make notes of woodgrain patterns you like, siding profiles you feel will bring out the best in your house, and then narrow down the colors to a few you think will work in your neighborhood. Then bring your wish list back into the siding experts at your local building material dealer. They have come to trust ABTCO vinyl siding products to deliver a very broad offering of low-maintenance sidings and accessories for years and years.

Keeping your ABTCO vinyl siding looking new is as simple as a little soap and a squirt from the garden hose from time to time.

The more you know about vinyl siding, the more you'll love ABTCO.

We find most people do plenty of research when it's time to remodel their home exterior. They start asking their neighbors and friends where they have had good or bad experiences. Checking the internet adds plenty of information—**specs, performance ratings, profiles, thicknesses and colors**. It's a great place to compare apples to apples. Most people will talk with a contractor friend and then go to their local building material dealer for their recommendation, and that will bring you to **ABTCO**.

Contractors and **homeowners** alike have depended on the low maintenance sidings from ABTCO for the best product designs and engineering that will give them a professional installation every time. Whether you do it yourself, or have a contractor do it for you, your home is going to go through an amazing transformation and **you're going to love it**.

There is a siding for every **taste** and **budget**. And there's a complete system to cover your entire home in low-maintenance vinyl. Around doors and windows. Soffit designed to fit all your overhangs and porches as well as the fascia and accessories to complete the job. With ABTCO, you can enter into the job with confidence knowing that everything you need will be there—from installation instructions and tips to all the special trim pieces and accessories.

HERE ARE A FEW IMPORTANT TERMS THAT WILL HELP YOU ALONG THE WAY.

Gauge

This is the thickness of the panel. The higher the gauge (or panel thickness), generally the better the panel. Thicker panels offer greater impact and weather resistance. Thicker panels also are more rigid so they will hang straighter and flatter against the wall for a more attractive finished installation. Thickness also adds cost, so balance out the performance characteristics you desire with your budget.

Grain

Vinyl siding is molded with different woodgrains to offer different exterior looks. We've designed the panels of ABTCO vinyl siding to have interesting woodgrains with enough subtle variations to allow for most every style and taste.

Style, Performance and Value

When selecting the right siding for your home, you will want to take into consideration the architectural styling of your home, environmental conditions such as wind and hail that your siding will need to endure, and your budget. ABTCO sidings come in most every price level, and even our most budget-conscious vinyl siding still stands up to harsh winters and tough summer sun.

Richmond

The Vinyl Siding that Stands Out Among the Rest as the Best.

- The time honored tradition of 6" lap siding in ultra durable vinyl.
- Classic beauty, long lasting elegance.
- Subtle realistic woodgrain molded from real cedar planks.
- Available in rich saturated craftsman tones and perfectly matched trims.
- Premium strength and impact resistance.
- Limited lifetime warranty on substrate and finish, plus 25 years fade resistance warranty.

Richmond^{ULTRA}

Where Style and Science Meet

The exterior of your home is an expression of your style but equally as important is that the beauty lasts. ABTCO offers the ultimate in style and science in the Richmond Ultra™ Collection. Richmond Ultra™ is designed to always look incredible and deliver protection and comfort year after year.

Richmond Ultra™ brings together quality insulation and vinyl siding using our patent-pending mechanical fastening system, a revolutionary system allowing the vinyl and foam to function independently to expand and contract freely as outside temperatures change. The system design maintains the structural integrity and resists warping and bowing, keeping your siding smooth and straight for years. Richmond Ultra™, unparalleled Beauty, Protection, Durability and Ease.

Colorguard™

Premium Vinyl Siding

Have you ever seen colors this rich in a low-maintenance siding?

Your neighbors will think it's painted rough-sawn cedar.

Using the latest in color preservation technology, Colorguard™ Plus siding adds a whole

range of colors to your spectrum of choices. Colorguard vinyl siding is finished with a shell that preserves its deep, rich color even after years of punishment from the sun. We call the process ColorFast™. But with an industry leading warranty to back it up, you can call it whatever you want.

Realistic woodgrain appearance

.046" thickness

Double-thick nail hem

Self-aligning lock design

ColorFast™ fade-resistance technology

DOUBLE 4

DOUBLE 4.5 DUTCHLAP

Colorguard® is available in 2 distinct profiles to add character to any home.

Why Colorguard vinyl siding?

Manufactured with

- Molded from real cedar planks, Colorguard siding has a low-gloss finish for the classic look of freshly painted wood.
- Colorguard premium siding is .046" thick, which means outstanding impact-resistance.
- Our unique LineLock™ self-aligning locking system means a quick, easy, secure installation.
- Colorguard siding's 3/4" profile height and double-thick nail hem offers excellent impact resilience and wind resistance.
- Our VaporVent™ weep hole system helps prevent water molecules from becoming trapped behind the siding in cold humid conditions.
- Compatible accessories are available to help you finish the job right.

NORTHERN STAR^{i/s}

Insulated Vinyl Siding

Add “Energy Saving” to the long list of advantages with Northern Star[®] i/s insulated vinyl siding.

The responsible solution
for a low-maintenance exterior
in colder climates.

Northern Star[®] vinyl siding has always been a top performer—with a premium thickness of .046", a double nailing hem for excellent impact resilience and wind resistance, and LineLock™ interlocking system for a smooth, professional installation every time. Now, we've engineered in a premium, patented, contoured foam support and insulation system precisely configured to fit the profile of the siding panel. It provides

durability and outstanding energy efficiency, and eliminates the void behind conventional hollow siding.

DOUBLE 4

Reduce your energy bills and add comfort at the same time.

Northern Star i/s adds three times the insulation value of standard fanfold at R-3, and can even help reduce your energy bills. Northern Star i/s forms an overlapping barrier, and provides enhanced air-flow resistance and a solid defense against air infiltration through gaps and overlaps. Of course your energy savings will depend on a number of variables, but the increased comfort you and your family feel with the added insulation is real. This siding also offers superior sound insulation.

Take a strong stand against the weather.

The impact resistance for Northern Star i/s is as much as 4 times that of most standard vinyl sidings. When you tap or knock on Northern Star i/s, it sounds and feels just like wood. One additional benefit is the rigidity that comes from the bonding of vinyl and our contoured foam support. Instead of 'telegraphing' the uneven surfaces of your home, Northern Star i/s goes up straight and stays true. Even when you apply force against the siding over a low spot, the siding returns to its original shape.

This siding system is energy tight, but still allows your walls to breathe.

Just how could a siding system be water-tight and breathable to release water vapor at the same time? It's designed to allow very little water in through the surfaces and seams, but allow plenty of moisture to escape in the form of water vapor. This allows your home to breathe 'naturally' and efficiently exchange moisture in any season.

Northern Star i/s can save you energy and a whole lot more...

- Increased air-flow resistance—fills in the voids behind the siding
- Superior impact resistance, added rigidity—stays straight against uneven wall surfaces
- Smoother appearance—get more of the look and feel of premium painted wood
- Better sound control
- Lifetime limited warranty on siding, 20 year warranty on the insulation

Harbor Ridge™ Vinyl Siding

The deep woodgrain.
The extra attention
to every detail.
You can tell from a
distance that this is a
top-of-the-line siding.

Give your house the richness it
deserves with Harbor Ridge.

When you want the look of real wood
and the resiliency of premium vinyl siding,
consider Harbor Ridge™. Calibrated
to a full .044" thickness, Harbor Ridge
vinyl siding's excellent impact and wind
resistance complements the textured
woodgrain for a unique blend of high-
performance and artistic beauty. Available
in two profiles and a range of colors,
Harbor Ridge vinyl siding provides a
beautiful and durable alternative to wood.

Make your whole house low-maintenance!

We want to completely take the drudgery out of home maintenance. We've designed all the necessary components to cover your entire home in low-maintenance vinyl.

There are vinyl soffits that come in many designs and widths, with special venting perforations that help the necessary exchange of air and moisture. We've engineered special window and door trims that do a great job of protecting your house and looking just like wood trim at the same time. Most of these accessories and trims come in a broad variety of colors to match your siding exactly, or provide a nice architectural statement in a contrasting shade. Ask your ABTCO dealer/supplier for information on all your options.

Waterford® Vinyl Siding

If you could take softly weathered painted pine and stop the weathering process in its tracks, you would have Waterford vinyl siding.

You can have texture and interest, and none of the maintenance associated with it.

Inspired by nature, Waterford® vinyl siding offers the realism of weathered pine—with almost none of the maintenance wood siding demands. Manufactured with the same UV protection as our premium lines, and certified under the Vinyl Siding Institute certification program, Waterford siding is artistically designed to re-create the unique look of weathered pine. Available in six profiles and a range of colors, Waterford vinyl siding is a high performance, low-maintenance alternative to wood.

Waterford™ Vinyl Siding is available in 6 profiles to give you more options.

Don't stop with the siding, cover your whole house!

There are a lot of areas on your house that siding doesn't cover. We've taken that into consideration and designed a complete line of soffit and accessories to do the job. With ABTCO sidings you get matching and contrasting accessories to round out your low-maintenance remodeling project.

Vinyl soffits come in many designs and widths, with special venting perforations that help the necessary exchange of air and moisture. There are also special window and door trims that do a great job of protecting your house and looking just like wood trim at the same time. Most of these accessories and trims come in a broad variety of colors to match your siding exactly, or provide a nice architectural statement in a contrasting shade. Ask your local store associate for information on all your options.

Why Waterford® Siding?

- Our unique LineLock™ panel locking system means quick and easy installation.
- High-grade vinyl compounds combined with advanced lab-engineered UV inhibitors mean outstanding resistance to the elements.
- Waterford siding's 1/2" panel silhouette adds significant rigidity during installation, and soothing shadow lines for enhanced beauty.
- Our VaporVent™ weep hole system helps channel condensed water vapor away from the siding.

Northern Star™ Board and Batten

Making your home stand out from the crowd.

Northern Star™ Board and Batten looks like real wood up close and on the wall, too.

Our low-gloss, rough cedar texture creates a surface so real, it feels like it could give you splinters! And the low-gloss cedar texture is just the start. Northern Star™ Board and Batten siding is wider and more realistic than most competitive board and batten vinyl sidings. It's a full 7" exposure with a 5 1/2" face and 1 1/2" batten. Northern Star™ Board and Batten siding has a full 1/2" profile that provides dramatic shadows and the authentic look of a true board and batten siding.

Northern Star Board & Batten vinyl siding's self-aligning locking system is designed to snap together with a positive connection, while allowing for flexibility in panel position during installation.

KP's Ultra-Vinyl UV technology compounds combat the harsh rays of the sun.

Low-gloss, rough cedar texture for a look of real wood.

Thickness of .046" for outstanding impact resistance and strength.

Full 1/2" profile for dramatic shadow lines.

Full 7" exposure with 5 1/2" face and 1 1/2" batten.

Northern Star Board and Batten with a virtual cedar wood grain is real-time low maintenance.

Enjoy the look of wood, without the worry. That wood siding you long for may be beautiful when it is new or freshly painted, but its beauty is short-lived. Northern Star Board and Batten looks like you spent the money for an expensive wood siding installation, and instead of scrapers and paintbrushes, you'll be using a garden hose from time to time to maintain its appearance. It's amazing peace of mind, backed by a lifetime limited warranty. Check our website for details and a copy of the warranty.

Using ColorFast™ Technology, non-reactive acrylic is fused to our premium vinyl compounds, providing fade resistant protection we warrant for 25 years.

Perfection Shingles™

Hand stained cedar beauty – that lasts.

The look of split cedar siding shingles without the maintenance.

Perfection Siding Shingles will not crack, rot or warp. The simple lines, historic style and natural beauty all enhance the exterior of your home. With minimal maintenance, this siding will provide years of beauty and elegance to your home's exterior.

Unique temperature lines molded directly on the panel ensuring fast and accurate installation.

Special structural ribs for added stability and extra protection against warping and distortion.

Easy Lock system enables installation under a window or at the end of a wall without tilting the panel.

Perimeter locks create a seamless look and hold the panels securely together.

- Unbeatable performance under the harshest weather conditions.
- Wind-load resistance of 220 mph.
- .090" thickness for added strength and rigidity.
- Variable width keyways designed to expand and contract without opening or buckling.
- Matching corner posts to complement any look.
- Advanced color-through process provides superior fade resistance.
- Backed by a Limited Lifetime Warranty.

Complete the look.

The look of Perfection Shingles isn't fully complete without Perfection Corners.

Perfection Corners are available in a length of 28".

Adirondack™ Vinyl Log Siding Wall System

The rustic look of log siding without the maintenance.

The Adirondack™ Wall System captures the charm, distinctive beauty and warmth of real wood log siding.

What's more, it won't dent, crack, or split, and its 0.046" thickness and precisely contoured foam underlayment make it highly impact resistant. Unlike real wood, Adirondack resists mold, rot, mildew and insects. Its underlayment makes it more energy-efficient and absorbs sound. Adirondack Vinyl Log Siding is available in 4 natural low gloss woodgrains to add warmth and rustic charm to your home without ever having to scrape, paint or stain.

- Precisely contoured underlayment for structural strength and energy efficiency
- .046" thickness for excellent scratch and impact resistance
- Panel locking system firmly locks panels together
- Deeply textured woodgrain molded from real cedar logs

US Patent Number US, 6, 647, 682, B2

EverTrim™ Decorative Trims

Add distinction to your home with the elegant wood look of EverTrim™ Window and Corner Trim. Choose 3 1/2" widths, or go a little bolder with our 5" widths.

Show your own sense of style.

ABTCO, a world leader in vinyl exteriors, has developed this custom finish trim system to take the beauty of your exteriors to the next level. EverTrim™ decorative trim adds that special detail to your ABTCO siding, giving your home the extra elegance that will help it stand out from the rest.

Corner Post Assembly

Style and substance.

Give your home a remarkable finishing touch. Emphasize windows and highlight corners for the look you've always imagined. Thanks to ABTCO's Lifetime limited warranty, you can enjoy your home's unique look for decades.

* See complete warranty for details.

Vinyl Soffit

Add a low-maintenance finishing touch with these rigid vinyl soffit panels that combine the beauty of real painted wood with the strength and durability of our premium vinyl siding.

Our vinyl soffit gives your home a finished look—and virtually eliminates maintenance in those hard-to-reach areas, like under the eaves and over porches. We have many designs to choose from in woodgrain or smooth with a low-gloss finish. Vented panels feature a full-width perforated design that maximizes visual appeal while providing essential attic ventilation.

Beaded Soffit

The charm of traditional wainscoting.

ABTCO Beaded Soffit beautifully combines the handcrafted look and feel of traditional wainscot-style soffit and its characteristic beaded wood with the practicality that comes with vinyl.

ABTCO offers 8" beaded soffit, available in both solid and vented. The vented beaded has been designed to provide ventilation where it maybe required yet the perforations remain hidden to maintain the integrity of your home's exterior design.

Selection of designer colors is fully coordinated with KP sidings, accessories and trims.

Luxurious, finely textured matte finish never needs painting.

Invisible vents optimize airflow but the perforations are hidden.

8" Beaded

I-Span™ Soffit

Strength that goes the extra mile.

For longer soffit expanses you need a soffit panel that can span the distance without sagging. You need I-Span™. With a 3/4" profile height, .046" wall thickness and I-beam construction, I-Span is designed for outstanding rigidity. A more rigid soffit panel provides a flatter, straighter appearance. In fact, I-Span resists sagging on over hangs up to 48".

- 3/4" profile height and .046" wall thickness.
- Innovative KP I-beam construction for enhanced rigidity to span distances of up to 48".
- Intellivent™ invisible venting provides necessary attic ventilation without calling attention to the soffit.

I-Span Soffit

I-Span Vented Soffit

Vinyl Skirting

For a clean and professional look, ABTCO soffit panels also work exceptionally well as foundation surrounds and skirting for manufactured housing or for porch enclosures. Solid panels can be interspersed with vented panels to provide necessary air exchange beneath the building.

- Sanitary and easy to clean.
- Insect and vermin resistant.
- Easy to install.

We carry all the necessary trim pieces and accessories for these and any vinyl siding and soffit job. Our customer service personnel will be happy to assist you in product selection and ordering procedures. We have detailed installation instructions available also to help you and your contractor get a good start on a professional-looking, finished remodeling job.

16" Vented Skirting

16" Solid Skirting

Consider the effects of *color* on your home.

We make choosing the colors for your home's exterior one of the most exciting parts of remodeling. It is a decision you will live with for many years to come, so it is worth taking the time to carefully consider your choices before making your final color decision. You can enter into the process with confidence, as our vinyl siding color palettes have been designed with shades that are destined to be attractive for the life of your home.

Keep in mind that colors often look different under different kinds of light, so you may want to take your favorite color chips outdoors to get a better idea of how they look. And since we offer so many trims and accessories in contrasting colors, you may also want to compare your favorite siding and roofing colors to your trim color choices. Explore color combinations and bring your vision to life by using our **Home Designer 2.0** on our website : www.abtco.com

Here's some food for thought as you ponder your color choices.

Complement your home's architectural style.

The design can provide some direction for color. For example, a traditional Cape Cod home may look best with a more subtle color combination, while a Victorian-style home may inspire more dramatic color selections.

Consider the effect of lighter shades.

Your home may appear larger with the use of lighter colors, and create an impression that it's closer to the front of the lot.

Don't be afraid of darker colors.

The darker colors like khaki and clay can make your home appear as though it is set farther back on the lot. Darker colors will also tend to make a home appear smaller—making a large home seem less imposing. Be careful, as it can also make a small home appear even smaller.

Accentuate important architectural details.

If your home has complex angles, using monochromatic color schemes (different shades of the same color) helps bring balance to the overall look.

Look for areas of visual interest.

Consider choosing trim in a color that complements or subtly contrasts to add visual interest to your home's exterior. It can focus attention on areas like entryways or porches.

ABTCO® a KP Brand Vinyl Siding has got you covered.

ABTCO vinyl siding is manufactured to the highest quality standards and designed to last for decades. Your siding is very low maintenance and typically only requires an occasional washing with soapy water. Now you can relax and enjoy the freedom of never having to paint your siding again. ABTCO vinyl siding is warranted to be free from manufacturing defects that result in peeling, flaking, rusting, blistering or rotting during the lifetime of the original purchaser, subject to the terms and conditions set forth in detail within the ABTCO siding warranty.
